

*“As we work to embody our values, what overarching purpose calls to us?”*  
*“What overarching difference are we here to make in the world, and for whom?”*

The Board of Trustees invites you to take part in The LOV Project, a series of workshops in which we will gather to explore our hopes and dreams for ourselves and our congregation, and discern how to build our future based on our strengths. The primary goal of the LOV project is to re-vision our congregational Mission and Ends to address our current aspirations.

The LOV Project is all about: Living Our Values—Connection, Inspiration, Compassion, Justice—Imagining Our Future. What does that look like for you?

This is the kind of good, generative work that will give us a strong foundation for what we do in the years ahead. Your participation in **one** two-hour workshop will ensure that we are doing the right things. Each workshop will help us name what is best in what we do now and how we can build on it to realize our hopes and dreams for this community.

These workshops are the road map to our congregation’s future. We are determined to hear as many voices as possible and to incorporate them

into this work. So please join us in a small group as fall begins as we imagine how we will be *Living our Values* at UUCA.
