

## Nut-free/Food-labeling Policy

Because of the risks to children and adults with sensitivities, UU Asheville is a **nut-free public space**. This means **we do not include food with nuts** in our kitchen or allow them to be served at UU Asheville-led events.

Rental groups and outside events should remove all nut items after their events, and clean carefully.

This policy also asks that all potluck or served food include clear labeling, indicating whether they are vegetarian, vegan, or contain meat, and some idea of basic ingredients (i.e., “Potato-leek soup, vegetarian. Contains dairy”)
