

## **May Community Plate Recipient Pro-Choice North Carolina**

In support of reproductive freedom, UU Asheville will be featuring three different organizations through March, April and May. Each group approaches this issue from a unique angle, but all work toward upholding a woman's right to make her own decisions with regard to her body and her privacy. Our May recipient is Pro-Choice North Carolina.

**[Pro-Choice North Carolina](#)** is a statewide nonprofit that works exclusively to protect and advance the reproductive rights of all North Carolinians. We advocate for everyone's right to make their own decisions about their reproductive health care, be it preventing pregnancy, abortion, or carrying a pregnancy safely to term.

100% of our funding comes from private sources—people like you—who believe individuals should be free to make decisions about their reproductive lives without government interference!

We organize thousands of activists across NC to raise their voices for access to comprehensive reproductive health care, including abortion. Our activists work to change stigmatizing narratives around abortion and sexual/reproductive health.

We also partner with allies to advance local and state legislation to protect and expand reproductive freedom and prevent anti-abortion policies and laws from passing.

Additionally, we hold elected officials accountable for advancing reproductive rights, health, justice, and abortion access for all North Carolinians.

Volunteers can support our work by writing Letters to the Editor and Op-Eds supporting abortion access, talking with their friends and family about why abortion is important to them, contacting their elected officials and telling them to stop anti-abortion policies and fight for increased access to abortion, and more!
